YEARS ENDED DECEMBER 31, 2021 AND 2020

## **MANAGER**

VALUE PARTNERS INVESTMENTS INC.

## PORTFOLIO MANAGER

DIXON MITCHELL INVESTMENT COUNSEL INC.

#### MANAGEMENT REPORT

#### Management's Responsibility for Financial Reporting

The accompanying financial statements have been prepared by the management of Value Partners Investments Inc. (Value Partners), the Manager of the Value Partners Pools (the Pools), and approved by the Board of Directors of Value Partners.

Management is responsible for the information and representations contained in these financial statements. The Board of Directors of Value Partners is responsible for reviewing and approving the financial statements and overseeing management's performance of its financial reporting responsibilities. An Audit Committee comprised of two independent Directors is appointed by the Board of Directors to review the financial statements, the adequacy of internal controls, the audit process and financial reporting with management and the external auditors. The Audit Committee reports to the Board of Directors prior to the approval of the audited financial statements.

Value Partners maintains appropriate processes to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments. The significant accounting policies which management believes are appropriate for the Pools, are described in note 3 of the financial statements.

KPMG LLP are the external auditors of the Pools. The external auditors have audited the financial statements in accordance with Canadian generally accepted auditing standards to enable them to express to the unitholders their opinion on the financial statements. Their report is set out below.

On behalf of Value Partners Investments Inc.

Manager of the Pools

Paul Lawton

Chief Operating Officer and Secretary

Dean Bjarnarson Chief Financial Officer

#### INDEPENDENT AUDITORS' REPORT

To the Unitholders of VPI Canadian Balanced Pool

#### **Opinion**

We have audited the financial statements of VPI Canadian Balanced Pool (the Entity), which comprise the:

- statements of financial position as at December 31, 2021 and December 31, 2020;
- statements of comprehensive income for the years then ended;
- statements of changes in net assets attributable to holders of redeemable units for the years then ended;
- statements of cash flows for the years then ended; and
- notes to the financial statements, including a summary of significant accounting policies (herein after referred to as the financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as at December 31, 2021 and December 31, 2020, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

#### **Basis for Opinion**

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other Information

Management is responsible for the other information. Other information comprises:

• the information included in the Management Report of Fund Performance filed with the relevant Canadian Securities Commissions.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the Management Report of Financial Performance to be filed with the relevant Canadian Securities Commissions as at the date of this auditors' report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report.

We have nothing to report in this regard.

## Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

#### We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to
fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### 1. Reporting entity:

(a) VPI Canadian Balanced Pool (the Pool) is an open-ended mutual fund trust, established on September 19, 2007 by declaration of trust under the laws of the Province of Ontario. As of March 2017, the registered office of the Pool is located at 300-175 Hargrave St., Winnipeg, Manitoba. The trustee of the Pool is RBC Investor Services Trust and the Manager of the Pool is Value Partners Investments Inc. (VPI or the Manager).

The Pool commenced operations on October 1, 2007 with three series of units: Series A, Series B and Series F. On July 5, 2017, the Pool began offering Series O units. The Pool no longer offers Series B or Cardinal Series units.

The Pool's objective is to generate long term growth in value and income by investing in a diversified portfolio of Canadian government and corporate bonds, Canadian and foreign equities, trust and limited partnership units, preferred shares and index or sector proxies, such as index participation units. It is designed to provide both moderate income and reasonable growth over the long term, while being sufficiently diversified to mitigate volatility.

(b) Redeemable units issued and outstanding are considered to be capital of the Pool. The Pool's authorized capital consists of an unlimited number of units and series without par value. The number of outstanding units of each series is disclosed in the statements of financial position.

Series A units are subject to a negotiated sales commission payable by the investor at the time of purchase. Series F units are only available to investors that have a fee-based account with a dealer that has signed a Series F agreement with the Manager. Series O units are available for investors who have, or whose dealer has, entered into an agreement directly with the Manager to purchase Series O units or if investors open discretionary investment management accounts with the Manager. Series O units have no sales charges. Unitholder switches between series are included in proceeds from redeemable units issued and redemption of redeemable units in the statements of changes in net assets attributable to holders of redeemable units and are excluded from proceeds from redeemable units issued and redemption of redeemable units in the statements of cash flows.

Except for Series O units, each series of units pays its proportionate share of common expenses of the Pool, in addition to expenses that are unique to that series. Proportionate fund expenses for Series O, both common fund expenses, as well as expenses unique to Series O, are paid by the Manager. Distributions of each series may vary due to the differences in expenses between the series.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 1. Reporting entity (continued):

(c) Unitholders may redeem all or part of their units by delivering a written request to do so to the Manager or Trustee or to an investment dealer, securities dealer or mutual fund dealer for delivery to the Manager or Trustee. Units will be redeemed at the net asset value per unit as determined on the next valuation date. Requests for redemption received after 4:00 p.m., Toronto time, on any day are deemed to be received on the first business day following the date of the actual receipt.

#### 2. Basis of preparation:

These financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) applicable to the preparation of annual financial statements.

The financial statements were authorized for issue by the Manager on behalf of the board of directors on March 21, 2022.

#### (a) Basis of measurement:

The financial statements have been prepared on an historical cost basis except for investments at fair value through profit or loss, which are measured at fair value.

#### (b) Functional and presentation currency:

These financial statements are presented in Canadian dollars, which is the Pool's functional currency. All financial information presented in Canadian dollars has been rounded to the nearest thousand.

#### (c) Use of estimates and judgments:

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The most significant judgments made by the Manager in preparing these financial statements is in determining the fair value of financial instruments not traded in an active market, if any, under IFRS 13 - Fair Value Measurement (IFRS 13).

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 3. Significant accounting policies:

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

#### (a) Financial instruments:

#### (i) Classification and measurement:

Financial assets are required to be classified into one of the following categories: fair value through profit or loss (FVTPL), amortized cost or fair value through other comprehensive income (FVOCI) based on the entity's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. Financial liabilities are measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is derivative or it is designated as such on initial recognition.

Assessment and decision on the business model approach used is an accounting judgement.

All financial instruments are measured at fair value on initial recognition. Measurement in subsequent periods depends on the classification of the financial instrument. Transaction costs are included in the initial carrying amount of financial instruments except for financial instruments classified as FVTPL in which case transaction costs are expensed as incurred.

Financial instruments at FVTPL are recognized initially on the trade date, which is the date on which the Pool becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognized on the date on which they are originated. The Pool derecognizes a financial liability when its contractual obligations are discharged, cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statements of financial position only when the Pool has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

At December 31, 2021 and 2020, no amounts have been offset in the statements of financial position.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 3. Significant accounting policies (continued):

- (a) Financial instruments (continued):
  - (ii) FVTPL:

Financial instruments classified as FVTPL are subsequently measured at fair value at each reporting period with changes in fair value recognized in the statements of comprehensive income in the period in which they occur. The Pool has classified its investments in securities as FVTPL.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and marketable securities) are based on quoted market prices at the close of trading on the reporting date. The Pool uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. The Pool's policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market, including derivative instruments, is determined using valuation techniques. Valuation techniques also include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and others commonly used by market participants and which make the maximum use of observable inputs. Should the value of the financial asset or liability, in the opinion of the Manager, be inaccurate, unreliable or not readily available, the fair value is estimated on the basis of the most recently reported information of a similar financial asset or liability.

The Pool's accounting policies for measuring the fair value of investments are consistent with those used for measuring its net asset value for transactions with unitholders.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 3. Significant accounting policies (continued):

- (a) Financial instruments (continued):
  - (iii) Amortized cost:

Financial instruments classified under amortized cost include financial assets that are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest and financial liabilities not classified as FVTPL. Such financial assets and liabilities are recognized initially at fair value plus any directly attributable transaction costs.

Subsequent measurement of these financial assets and financial liabilities is at amortized cost using the effective interest method, less any impairment losses. Interest income is recognized by applying the effective interest rate. The Pool classifies cash, accrued dividends receivable, accrued interest receivable for distribution purposes, subscriptions receivable, accounts payable and accrued liabilities, redemptions payable, due to Manager and management fees payable as amortized cost. Cash includes cash on deposit with the custodian.

The effective interest method is a method of calculating the amortized cost of a financial asset or liability and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

#### (iv) Impairment:

For financial assets measured at amortized cost, the Pool uses an expected credit loss (ECL) impairment model. The ECL model uses an allowance for expected credit losses being recorded regardless of whether or not there has been an actual loss event.

The Pool measures the loss allowance at an amount equal to lifetime ECL for trade and other receivables. Lifetime ECL's are the ECL's that result from all possible default events over the expected life of the trade and other receivables. ECL's are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (that being the difference between the cash flows due to the Pool in accordance with the contract and the cash flows that the Pool expects to receive). ECL's are discounted at the effective interest rate of the financial asset.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 3. Significant accounting policies (continued):

#### (b) Redeemable units:

The Pool classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. The Pool has multiple classes of redeemable units that do not have identical features and therefore, does not qualify as equity under International Accounting Standard (IAS) 32, *Financial Instruments - presentation* (IAS 32). The redeemable units, which are measured at the redemption amounts and are considered a residual amount of the net assets attributable to holders of redeemable units, provide investors with the right to require redemption, subject to available liquidity, for cash at a unit price based on the Pool's valuation policies at each redemption date.

#### (c) Foreign currency:

The Pool's subscriptions and redemptions are denominated in Canadian dollars, which is also its functional and presentation currency. Foreign denominated investments and other foreign denominated assets and liabilities are translated into Canadian dollars using the exchange rates prevailing on each valuation date. Purchases and sales of investments, as well as income and expense transactions denominated in foreign currencies, are translated using exchange rates prevailing on the date of the transaction.

Foreign exchange gains and losses relating to cash are presented as 'Foreign currency gain (loss) on cash and other net assets' and those relating to other financial assets and liabilities are presented within 'Net realized gain' and 'Change in unrealized appreciation (depreciation)' in the statements of comprehensive income.

#### (d) Investment transactions and revenue recognition:

Interest income for distribution purposes from investments in bonds and short-term investments represents the coupon interest received by the Pool accounted for on an accrual basis. The Pool does not use the effective interest method to amortize premiums paid or discounts received on the purchase of fixed-income securities. Dividend income is recognized on the date that the right to receive payment is established, which for quoted equity securities is usually the ex-dividend date. Portfolio transactions are recorded on the trade date. Realized gains and losses arising from the sale of investments are determined on the average cost basis of the respective investments.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 3. Significant accounting policies (continued):

(e) Increase (decrease) in net assets attributable to holders of redeemable units, per unit:

Increase (decrease) in net assets attributable to holders of redeemable units, per unit in the statements of comprehensive income represents the net increase (decrease) in the net assets from operations for each series for the period divided by the weighted average units outstanding for each series for the period.

#### (f) Income taxes:

The Pool qualifies as a Mutual Fund Trust as defined in the *Income Tax Act* (Canada). Pursuant to the terms of the Declaration of Trust establishing the Pool, it is considered to distribute annually to the unitholders all of the net taxable income, including net realized gains on sale of investments, and such distributions are immediately reinvested in units of the Pool.

In general, the Pool is subject to income tax, however no income tax is payable on net income and/or net realized capital gains which are distributed to unitholders. In addition, income taxes payable on net realized capital gains is refundable on a formula basis when units of the Pool are redeemed.

Capital losses are available to be carried forward indefinitely and applied against future capital gains. Any non-capital losses that are realized in the taxation year 2006 and after may be carried forward for 20 years and applied against future income and capital gains.

#### 4. Management fees and expenses:

Except for Series O units, the Manager of each series of units is entitled to a monthly management fee from the Pool based on a percentage of the net asset value of each series of units as of the close of business on each business day calculated at the following annual rates:

Series A	1.80%
Series F	0.90%

The Manager offers a management fee reduction program to qualified investors in Series A and Series F units. If the unitholder qualifies under this program, the management fee charged to the Pool is reduced and the Pool distributes the amount of the reduction to the investor by way of a management fee distribution. Management fee distributions are automatically reinvested in additional units of a particular series of the Pool unless negotiated otherwise with the Manager. No management fee is charged to the Pool with respect to Series O units. Instead, each investor negotiates a separate fee that is paid directly to the Manager.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 4. Management fees and expenses (continued):

Except for Series O units, in addition to the management fee, each series of units pays its proportionate share of common operating expenses of the Pool, in addition to expenses that are unique to that series.

These expenses include, but are not limited to audit, legal and filing fees, custodial, recordkeeping and trustee fees, transfer agent fees, investor servicing costs, taxes, compensation and expenses of the Independent Review Committee, and costs of unitholder reports, financial reporting, prospectuses, regulatory filings, and other communications. Brokerage commissions and transaction costs for buying and selling investments for the Pool's portfolio are also paid by the Pool, as well as the costs and expenses related to holding any meeting convened by unitholders.

Proportionate fund expenses for Series O units, both common fund expenses, as well as expenses unique to Series O, are paid by the Manager.

The Manager absorbed a portion of the operating expenses (note 5) of the Pool during the years ended December 31, 2021 and 2020.

#### 5. Related party transactions:

Related party balances of the Pool as at December 31, 2021 and 2020 are as follows:

	2021	2020
Management fees payable Due to manager	\$ 1,264 8	\$ 1,000 35

Related party transactions of the Pool for the Year ended December 31, 2021 are as follows:

	2021	2020
Management fees Absorbed expenses	\$ 13,489 (12)	\$ 10,231 (8)

These transactions are in the normal course of operations and are measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 5. Related party transactions (continued):

As of December 31, 2021 and 2020, the parent company of the Manager held the following number of units in the Pool:

	2021	2020
Series F	31,701	31,559

#### 6. Brokerage commissions:

Commissions paid to brokers for portfolio transactions for the years ended December 31, 2021 and 2020 are disclosed in the statements of comprehensive income.

There were no soft dollar commissions paid during years ended December 31, 2021 and 2020.

#### 7. Income taxes:

There were no capital or non-capital losses available for carryforward as of December 31, 2021 and 2020

#### 8. Financial risk management:

The investment activities of the Pool expose the Pool to various types of financial risks. The Manager seeks to minimize potential adverse effects of these risks on the Pool by contracting a professional, experienced portfolio manager, by monitoring the Pool and market events on a daily basis, and by diversifying the investment portfolio within the parameters of the investment objective and strategy. The most significant risks include market risk (other price risk, interest rate risk and currency risk), credit risk and liquidity risk. These risks and related risk management practices employed by the Pool are discussed below:

#### (i) Other price risk:

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. The maximum risk resulting from financial instruments held by the Pool is determined by the fair value of the financial instruments. The portfolio manager moderates this risk through a careful selection of securities within specified parameters established for the Pool.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 8. Financial risk management (continued):

For the Pool, the most significant exposure to other price risk arises from investments in equity securities.

The following table shows the exposure of the Pool to equity securities and indicates the impact on net assets if the prices of the equity securities on the respective stock exchanges increased or decreased by 5 percent, with all other variables held constant.

	Fair value of equities (\$)				% of net assets	act on net assets (\$)	Impact on net assets (%)
As at December 31, 2021	\$	670,174	76.42%	\$ 33,509	3.82%		
As at December 31, 2020	\$	485,990	71.10%	\$ 24,300	3.55%		

#### (ii) Interest rate risk:

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Pool is exposed to this risk to the extent that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates.

The tables below summarize the Pool's exposure to interest rate risk. They include the Pool's assets and trading liabilities at fair values, categorized by the earlier of contractual re-pricing or maturity dates.

As at December 31, 2021	Less than 1 year	1 - 3 years	3 - 5 years	Greater than 5 years	Non- interest bearing	Total
Financial assets at FVTPL	\$ 16,299	\$ 34,270	\$ 48,333	\$ 81,410	\$ 670,174	\$ 850,486
	Less than	1 - 3	3 - 5	Greater than	Non- interest	
As at December 31, 2020	1 year	years	years	5 years	bearing	Total
Financial assets at FVTPL	\$ 45,830	\$ 29,556	\$ 35,255	\$ 65,064	\$ 485,990	\$ 661,695

At December 31, 2021 and 2020, should interest rates have increased or decreased by 25 basis points, excluding cash and treasury bills and assuming a parallel shift in the yield curve, with all other variables held constant, net assets for the Pool would have approximately increased or decreased as indicated in the following table.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 8. Financial risk management (continued):

The Pool's sensitivity to interest rates was estimated using the weighted average duration of the bond portfolio.

	Impact on net assets (\$)			
As at December 31, 2021	\$ 3,568	0.41%		
As at December 31, 2020	\$ 2,095	0.31%		

#### (iii) Credit risk:

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Pool. The Pool's greatest concentration of credit risk is in bonds and debt securities such as Canada Treasury Bills. The fair value of debt securities includes consideration of the credit worthiness of the debt issuer. The carrying amount of investments represents the maximum credit risk exposure as at December 31, 2021 and 2020.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Debt securities in the Pool by credit rating are as follows:

	% of debt	% of net
As at December 31, 2021	securities	assets
AAA	30.32%	6.23%
AA	15.21%	3.13%
A	41.63%	8.55%
ЗВВ	12.84%	2.64%
	100.00%	20.55%
	% of debt	% of net
As at December 31, 2020	securities	assets
AAA	44.71%	11.50%
AA	10.45%	2.69%
A	34.71%	8.92%
BBB	10.13%	2.60%

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 8. Financial risk management (continued):

#### (iv) Liquidity risk:

The Pool is exposed to liquidity risk to the extent it is subject to daily cash redemptions of redeemable units. Therefore, the Pool invests the majority of its assets in investments that are traded in an active market and can be readily disposed. In addition, the Pool retains sufficient cash positions to maintain liquidity.

#### (v) Currency risk:

The Pool uses the Canadian dollar as its functional and reporting currency. Currency risk is the risk that the value of monetary assets and liabilities denominated in currencies other than the Canadian dollar (the functional currency of the Pool) will fluctuate due to changes in exchange rates.

The only foreign currency to which the Pool was exposed at December 31, 2021 and 2020 was the U.S. dollar. The following tables illustrate the potential impact to the Pool's net assets, all other variables held constant, as a result of a 5 percent change in this currency relative to the Canadian dollar.

As at December 31, 2021	CUI	Foreign rencies (\$)		Impact on assets (\$)	Impact on net assets (%)
As at December 51, 2021	Cui	Terroies (ψ)	TICL	ασσοισ (ψ)	1101 033013 (70)
United States dollar	\$ 293,328		\$	14,666	1.67%
		Foreign		Impact on	Impact on
As at December 31, 2020	cur	rencies (\$)		assets (\$)	net assets (%)
United States dollar	\$	226,270	\$	11,318	1.65%

#### (vi) Concentration risk:

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 8. Financial risk management (continued):

The market segments are represented as a percentage of financial assets at FVTPL. The following is a summary of the Pool's concentration risk:

Market segment	December 31,	December 31,
Long	2021	2020
	%	%
Short term investments	0.59	4.53
Corporate bonds	8.67	7.55
Federal bonds	4.87	5.94
Provincial bonds	7.08	8.54
Banks	13.23	11.05
Capital goods	2.83	3.58
Commercial and professional services	2.28	1.98
Communication services	0.82	1.02
Consumer durables and apparel	1.44	1.77
Consumer services	1.94	2.16
Diversified financials	10.57	8.30
Energy	2.20	2.53
Food, beverage and tobacco	1.03	3.46
Food and staples retailing	3.24	2.11
Health care equipment and services	3.19	3.50
Insurance	0.68	0.72
Materials	2.49	1.50
Media and entertainment	5.07	3.44
Pharmaceuticals, biotechnology and life sciences	3.05	2.76
Retailing	3.24	2.12
Software and services	11.45	11.17
Technology hardware and equipment	3.34	4.81
Transportation	6.70	5.46
·		
	100.00	100.00

#### (vii) Other risk:

The global pandemic related to an outbreak of COVID-19 has cast additional uncertainty on the assumptions used by management in making its judgements and estimates. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Pool in future periods.

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 9. Fair value disclosure:

#### (i) Valuation models:

The Pool's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The Pool's financial instruments are recorded at fair value or at amounts that approximate fair value in the financial statements. The Pool classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Manager has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3: Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgment or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Changes in valuation methods may result in transfers into, or out of, a financial instrument's assigned level.

#### (ii) Fair value hierarchy - financial instruments measured at fair value:

The following table presents information about the Pool's assets which are recorded at fair value on a recurring basis as of December 31, 2021 and 2020.

Financial assets at fair value as at December 31, 2021:

	Level 1	Level 2	L	evel 3	Total
Equities - long Bonds Short term investments	\$ 670,174 - -	\$ _ 175,313 4,999	\$	- - -	\$ 670,174 175,313 4,999
	\$ 670,174	\$ 180,312	\$	_	\$ 850,486

Notes to Financial Statements (continued) (In thousands of dollars, except for unit amounts)

Years ended December 31, 2021 and 2020

#### 9. Fair value disclosure (continued):

Financial assets at fair value as at December 31, 2020:

	Level 1	Level 2	Level 3	Total
Equities - long Bonds Short term investments	\$ 485,990 - -	\$ _ 145,724 29,981	\$ - - -	\$ 485,990 145,724 29,981
	\$ 485,990	\$ 175,705	\$ _	\$ 661,695

During the years ended December 31, 2021 and 2020, there were no transfers between levels. The financial instruments not measured at FVTPL are short-term financial assets and financial liabilities whose carrying amounts approximate fair value.
